

MEDIA PROJECT

Task 1: Demonstrate where and how statistics are used in the media

Task 2: Find a career that would use statistics or budgeting and explain how the math is used

This is an open-ended project. You will be assessed using our general rubric.

Task 1 Criteria:

- Clearly states where statistics are used in the media
- Clearly states how statistics are used in the media
- Clearly shows the advertisement or media source
- Explains how the math is used
- Demonstrates misconceptions in media (if present)

Task 2 Criteria:

- Clearly states career
- Displays advertisement or job posting that clearly states math skills
- Explains how math is used in the job on a daily basis
- Clearly connects classroom math to the career

Some Ideas

- create a pamphlet
- create a poster
- create a video chat
- create a Youtube video
- create a Powerpoint/Prezi/Google presentation
